PROFESSIONAL SUMMARY

Results-driven Software Engineering graduate and Cybersecurity Intern with hands-on experience in modern web technologies, and web security best practices. Passionate about solving complex technical problems, optimizing site performance, and creating secure, scalable digital products.

TECHNICAL SKILLS

Cyber Security: Blue Team – SOC, Network Security & Log Analysis (Splunk, ELK) | Red Team – Ethical Hacking, Penetration Testing & Vulnerability Assessment

Web Development: WordPress Development, Front-End (HTML, CSS, JavaScript)

Design: Graphic, Logo & UI Design (Canva & AI Tools)

Other: TCP/IP & Networking Fundamentals, MS Office

CERTIFICATIONS & TRAINING

Cyber Security Training — MotiGraph Company: Red Team & Blue Team Training Programs (Certificates of Experience) — 3-Month Practical Training (Apr – Jul 2026)

Cyber Security Course — MTEC Academy: Red Team Diploma (144 hrs) & Blue Team Diploma (80 hrs) (Feb – Aug 2026)

Practical Training — Web Design & Programming — WooServ Corporation, Cairo, Egypt (2020)

TryHackMe — Introduction to Cyber Security (in progress)

CS50: Introduction to Computer Science — Self-Learning (2024)

WordPress Development — Self-Learning (2021)

C++ Programming Course — Aqaba University of Technology, Jordan (2019)

PROJECTS

Red Team & Blue Team Practice Projects — Network penetration test (Nmap, Metasploit, ARP/MITM) and a SOC incident investigation (Windows Logs, Snort, SIEM, MITRE ATT&CK), each with a full report.

Web & App Development

- Mohamed Nabil Portfolio — personal portfolio website
- AMNA — UI/UX design for a mobile app
- Wlif — website development
- Wlif Pets Care — website development
- LAMAR HIGHEST — web application for an apply/application service
- whitkey.com — website development
- whitekeybedertaha.com — website development
- brgs-store.com — website development
- matarclinic.com — website development
- rishaarts.com — website development
- hawaryhospital.com — website development

Graphic Design — Designed a range of logos, posters, and branding visuals for personal and client projects.

WORK EXPERIENCE

Freelance WordPress Developer **June 2022 – Present**

- Develop and maintain client websites, focusing on secure configuration and performance.

AJA Media — Website Developer & UI/UX Designer **Dec 2024 – Feb 2025**

Riyadh, Saudi Arabia

- Built WordPress sites and provided IT/e-commerce support (Salla platform).

Military Suez Canal Security Department — Monitoring Operator **July 2022 – Sept 2023**

Suez Canal, Egypt

- Monitored ship movements via radar in real time, ensuring data accuracy in a high-traffic operational environment — a discipline directly transferable to SOC alert monitoring.

WooServ Corporation — Web Developer **Oct 2020 – Aug 2022**

Cairo, Egypt

- Developed responsive web interfaces using HTML, CSS, and JavaScript.

EDUCATION

Bachelor's Degree in Software Engineering

Aqaba University of Technology, Aqaba, Jordan | 2017 – 2021

- Graduation Project: "Jordan Fast Medicine" — Achieved Grade: A
- Accredited by the Accreditation and Quality Assurance Commission for Higher Education Institutions (AQACHEI), Amman, Jordan
